- Using data Analytical tools to study the data and finding patterns.
- The study also includes the trends followed by the frequency of the top khalid songs

## **THE DATA**

The data is consists of khalid's music and album the includes following data:

- Artist
- Title
- Album
- Year
- Date
- Lyrics

# Career Analysis: (2016-2020)

Most Active year

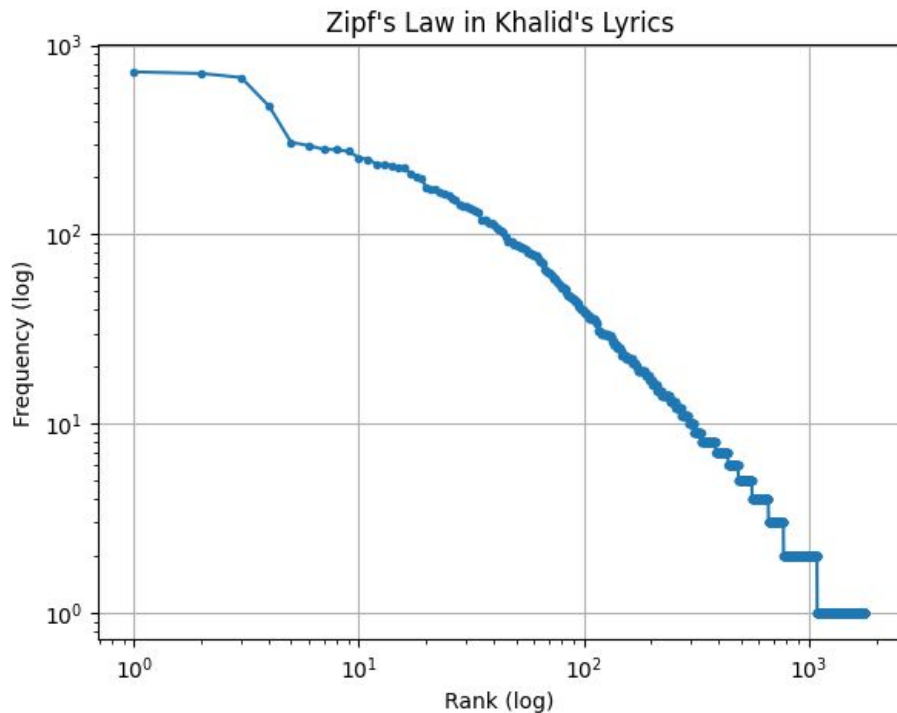

Songs in each Album.

# Understanding Zipf's Law

**Definition:** "Zipf's Law states that the frequency of any word in a corpus is inversely proportional to its rank in the frequency table. In other words, the most frequent word appears roughly twice as often as the second most frequent, three times as often as the third, and so on."

**Relevance:** "Zipf's Law is important because it reveals natural language patterns. Words like articles, prepositions, and common pronouns tend to dominate the most frequent word ranks. We can apply this to Khalid's lyrics to see how his word choices align with general language trends."

# Zipf's Law & trends on Natural language

*"The plot approximates a straight line on a log-log scale, showing that Khalid's lyrics follow Zipf's Law, with a few high-frequency words dominating the rest."*

# Analysing the Graph:

- The graph shows a downward-sloping line on a log-log scale.
- Indicates that a small number of words are used very frequently, and many words are used rarely.
- This is a classic pattern in natural language, confirming that Khalid's lyrics follow linguistic norms.
- Frequent words are likely common pronouns or verbs (I, you, love, etc.)

# Trends on Individual song

Combined Zipf's Law Plot for All MP3 Files

# Sentiment of khalid song

- Most songs fall between **neutral to slightly positive sentiment**.
- Very few songs show **strongly negative or strongly positive emotions**.
- Indicates a **balanced and introspective emotional tone**.
- Lyrics likely explore themes of **youth, relationships, and self-reflection**.
- Matches genres like **Contemporary R&B** and **Alt-Pop**.
- Suggests a style that is **relatable, mellow, and emotionally nuanced**.

*Khalid's songs reflect emotionally balanced storytelling, aligning with the soulful and introspective nature of Contemporary R&B and Alt-Pop.*

# Findings :

## Career Analysis (2016–2020):

- The study covers Khalid's music from 2016 to 2020.
- It identifies his most active year and provides insights into the number of songs released per album.
- Khalid's most famous album is **AMERICAN TEEN** with 15 songs and most active year is 2019 with almost 18 songs

## Zipf's Law Application:

- The frequency of words in Khalid's lyrics follows Zipf's Law, meaning a few words occur very frequently while most appear rarely.
- A log-log plot of word frequency vs. rank approximates a straight line, confirming this linguistic trend.

## Sentiment Analysis:

- Most of Khalid's songs have a neutral to slightly positive sentiment.
- Very few songs show strong emotional polarity (either highly positive or highly negative).
- His lyrics often revolve around themes like youth, relationships, and self-reflection.

## Genre Alignment:

- The emotional tone and lyrical content are consistent with Contemporary R&B and Alt-Pop.
- His music is described as relatable, mellow, emotionally nuanced, and introspective.

# THANK YOU

We appreciate your time and attention!

This study combined music, data science, and language analysis to explore the lyrical patterns of Khalid and the relevance of Zipf's Law in natural language.

*“Keep me focused on what's real now.”*

— *Khalid*
